

Institute of Child Health

**“The quality of print from Stephen Austin and Sons is second to none – and it is always a pleasure to work with the knowledgeable and friendly staff. Their service levels are excellent.”**

ICH designed and produced the flagship publication for Great Ormond Street Hospital – Welcome To GOSH. Due to the prestigious nature of the project Stephen Austin helped ICH plan and manage the production of the issue and then store and distribute on a call off basis.

The ICH team have such a good understanding of the design process and creative concepts that Stephen Austin & Sons have been delighted to recommend them for other work with similar organisations.
