

Institute for Learning

“Our requirements for the certificates were very demanding however the Stephen Austin team provided an excellent service and product to solve the problem.”

The Institute for Learning is the professional body for teachers, trainers, tutors and student teachers in the learning and skills sector. By listening to and supporting the needs of their members, IfL continue to raise the status of teaching practitioners across the sector.

IfL provide the mechanism by which teachers register and progress through to Licensed Practitioners and require specialist certificates that are compatible with laser overprinting and have a non-melt foil blocking. After various tests Stephen Austin and IfL worked together to find the right materials for the process and ensured the tight delivery schedules were met.
