

Birkbeck, University of London

“Stephen Austin are one of our Framework suppliers and have shown over the many years that they have worked for us that they are able to supply work of the highest quality, on time.”

Stephen Austin had worked for Birkbeck for many years before they decided to establish a panel of printers through Framework Agreements. Stephen Austin were chosen as a Framework partner not only because we were able to demonstrate that we could offer the quality needed for Birkbeck’s marketing materials at competitive prices but also because our experience in the world of education offered a good cultural and practical fit with Birkbeck’s needs.
